

Concrete Repairs Limited earns prestigious global health and safety award from
The Royal Society for the Prevention of Accidents (RoSPA)

Concrete Repairs Limited has received a prestigious RoSPA Award, demonstrating its commitment to health and safety excellence.

Concrete Repairs Limited (CRL) has won a **Patron's Award**, demonstrating its dedication to keeping everyone safe at work. This also recognises 25 years of consecutive Gold Awards! Now in its 69th year, and with almost 2,000 entries annually from over 50 countries, covering over seven million employees, the RoSPA Awards are the world's largest health and safety awards programme, recognising those organisations and individuals who have set the highest standards in accident prevention.

Whether seeking non-competitive excellence recognition or entering for a competitive award across 20 industry sectors, each RoSPA Award entrant is assessed against rigorous criteria, making **Concrete Repairs Limited** a world leader in shaping safer, healthier workplaces.

Tony Rimoldi, Executive Chairman of CRL, said:

"We are delighted to receive this Patron's Award which acknowledges 25 years of consecutive Gold Awards. It is an incredible achievement, which not only reflects the continuing safety culture of the business but also the huge amount of hard work required behind the scenes to maintain these internationally recognised standards."

Julia Small, RoSPA's Growth Director, said:

'Concrete Repairs Limited should be proud of the hard work and commitment to keeping people safe that has resulted in a RoSPA Award, which honours those organisations who have achieved the highest standards in health and safety in the workplace. RoSPA regards Concrete Repairs Limited as a strong example of the importance of making accident prevention central to any successful organisation, not just for the benefit of employees, customers and clients, but also society as a whole.'

Sponsored by the National Examination Board in Occupational Safety and Health (NEBOSH), the RoSPA Awards scheme is the longest-running of its kind in the UK, and receives entries from organisations across the globe, making it one of the most sought-after achievement awards for the health and safety industry.
