Specialist Contractor

protecting your **vital infrastructure**

CRL Surveys

provides **professional** and **technical services** for the **inspection** of **buildings** and **structures** in the UK and around the world based on over **50 years experience**. **CRL Surveys** uses a range of intrusive and **non-destructive testing techniques** backed up with **laboratory analysis** to identify the nature, cause and extent of any deterioration. This information is then collated to provide a **comprehensive report with repair options** and if required **budget costs** and **bills of quantity**. **CRL Surveys** provide a **professional service** which enables our **customers** to **maintain** their **assets** with an **efficient long term strategy** based on **expert knowledge** of the cause and extent of the deterioration.

CRL Surveys technical

reports are renowned for their **detail** and **clarity**, describing the remedial options that best suit your structure and your requirements. The reports clearly **details the reasons** and context for the **options** provided, the **methods** that would be employed and comprehensive discussions comparing the results with current industry standard guidance. Furthermore, our reports provide **honest, impartial advice** that is **tailored from our vast experience** for your structural needs and unlike most testing companies we cannot only identify the problem but also advise on how to solve it based on **over 50 years experience** in the **repair of concrete** which is unique to the industry.

Enhanced Performance

prolonging the life of your structure

UKAS accreditation is critical to better regulation of the industry and **CRL Surveys** is one of the few in **UK survey companies to hold UKAS accreditation** for its onsite services. UKAS accreditation **assures our customers** that the work is undertaken to an audited **standard** and demonstrates due diligence in the event of legal action. Most of our **clients** now **specify** UKAS accreditation for onsite services to select suitable inspection companies providing the same quality of service. **Our accreditation covers the top ten onsite procedures** normally undertaken to **assess concrete** and **site samples are analysed at UKAS Accredited laboratories**. This ensures the work **complies** with **European Standards** and **guidelines** issued by the BRE and The Concrete Society.

The **Health & Safety** of our **employees** and **everyone** else affected by our activities is **fundamental to our business**. **CRL Surveys** believe our success is driven by our **commitment to safety**. **CRL Surveys** is **experienced** in operating in a range of environments including **nuclear, marine, clean and dirty water processing stations**, working at **height** and in **confined spaces** using the latest access techniques. **CRL Surveys** consistently **win awards** for our **safety standards** and work closely with the HSE to eliminate or reduce health risks with improved PPE and procedures.
